### LGIP Bank Holiday

The State Treasurer's office will be closed for LGIP business on:

September 1      Labor Day

Friends,

Last year, I visited all 72 counties. This year I am well on my way again, and have already visited 36 counties. During my travels, people are always surprised that they have unclaimed property. Visit our website, at [www.ost.state.wi.us](http://www.ost.state.wi.us), to check if you or your local government unit is owed any money.

Sincerely,

*Dawn Marie Sass*

**SUMMARY OF INVESTMENT FUND PARTICIPANTS**

	<b>Par Amount \$(000)</b>	<b>% of Portfolio</b>
Local Government Investment Pool	3,733,974	66.5%
State of Wisconsin and Agencies	1,386,828	24.7%
State of Wisconsin Investment Board	493,074	8.8%
	<b>\$ 5,613,876</b>	<b>100%</b>

**Note:** The difference between the total of participant's unit shares (\$5,613,876) and the total of the investments (\$5,822,442) is the result of check float (checks written and posted at DOA-finance that have not yet cleared the bank) and a timing delay in posting bank receipts at DOA-Finance which have already been invested by SWIB.

**AVERAGE MATURITY**

<b>For Month Ended</b>	<b>Avg. Days Maturity</b>	<b>For Month Ended</b>	<b>Avg. Days Maturity</b>
6/30/2008	51	2/29/2008	40
5/31/2008	41	1/31/2008	48
4/30/2008	32	12/31/2007	56
3/31/2008	36	11/30/2007	30

**Note:** The Average Maturity is calculated to the next interest reset date for all floating rate securities in the portfolio. The calculation also uses the 'average life' maturity date for all asset-backed and mortgage-backed securities in the portfolio. The maturity date used for all linked and hedged securities is based on the characteristics of the resulting security package, not the underlying securities within the package.

Note: The Maturity Distribution Report classifies securities in the portfolio by their anticipated maturity.

Note: The Interest Sensitivity Report classifies securities in the portfolio by their next interest reset date. For floating rate securities, interest rate sensitivity is classified based on the interest rate reset date. The maturity date used for all linked and hedged securities is based on the characteristics of the resulting security package, not the underlying securities within the package.
