STATE OF WISCONSIN
CLASSIFICATION SPECIFICATION

UNEMPLOYMENT INSURANCE COLLECTIONS SPECIALIST
CLASSIFICATION SERIES

I. INTRODUCTION

A. Purpose of This Classification Specification

This classification specification is the basic authority under Wis. Admin. Code ER 2.04 for making classification decisions relative to present and future Unemployment Insurance (UI) Collection Specialist positions. Positions allocated to this classification are responsible for performing UI collections activities. This classification specification is not intended to identify every duty which may be assigned to positions, but is intended to serve as a framework for classification decision making in this occupational area.

Classification decisions must be based on the “best fit” of the duties within the existing classification structure. The “best fit” is determined by the majority (i.e., more than 50%) of the work assigned to and performed by the position when compared to the class concepts and definition of this specification or through other methods of position analysis. Position analysis defines the nature and character of the work through the use of any or all of the following: definition statements; listing of areas of specialization; representative examples of work performed; allocation patterns of representative positions; job evaluation guide charts, standards or factors; statements of inclusion and exclusion; licensure or certification requirements; and other such information necessary to facilitate the assignment of positions to the appropriate classification.

B. Inclusions

This series encompasses professional positions, as defined in s. 111.81(15), Wis. Stats., that are located within the Bureau of Tax and Accounting of the Division of Unemployment Insurance, found in the Department of Workforce Development. Positions allocated to this series perform UI collections activities and require either (1) on-going personal contact with employers in order to resolve collection disputes or (2) on-going interaction with claimants. Positions in this series also interact with a variety of third parties in order to resolve collection disputes; and involve the initiation of legal enforcement actions to resolve collection disputes. Positions in this series are responsible for recommending law, system and procedural changes; also handling and managing all aspects of a variety of technical cases; and providing technical assistance to debtors.

C. Exclusions

Excluded from this classification series are the following types of positions:

1. Positions which meet the statutory definition of supervisor or management as defined in s. 111.81(19) and (13), Wis. Stats., as administered and interpreted by the Wisconsin Employment Relations Commission.

2. Positions which do not meet the statutory definition of professional employee as defined in s.111.81(15), Wis. Stats., as administered and interpreted by the Wisconsin Employment Relations Commission.
3. Positions which are, for a majority of the time, engaged in performing collections activities for any other departmental program, e.g. Worker’s Compensation, and are classified as Collections Specialist.

4. Positions which are, for a majority of the time, engaged in total employer account management services specific to unemployment tax purposes. These positions are more appropriately classified as Unemployment Tax and Accounting Specialist.

5. All other positions which are more appropriately identified by other classification specifications.

Employees enter positions within this classification series by competition. Progression to the intermediate and senior levels will occur through reclassification after the employee satisfactorily attains the specified training, education, or experience.
